LONG ISLAND CABBAGE SEED

AND

OTHER SPECIAL SEED STOCKS

FRANCIS BRILL SEED CO.

HEMPSTEAD, L. I. N. Y.

To Gardeners, Truckers and Plant Growers:

0000

Our Business of Seed Growing was first established by John Brill, father of the late Francis Brill, at Jersey City, N. J., in 1828.

Francis Brill, after serving several years with his father, started on his own account at Newark, N. J., in 1859—removed to Long Island in 1870, where he made a specialty of growing cabbage seed, and supplying a few other specialties grown by reliable growers, until his death, March 24th, 1913.

The business is now being carried on under the name of Francis Brill Seed Co., with A. W. Brill, son of Francis Brill, as manager, and all orders you favor us with will have the same careful attention exercised by my father for 54 years.

Remember, we have been growing Cabbage Seed on Long Island since 1870 and have the very best stocks to be found anywhere.

Other seeds we have grown for us by the best growers we can find, regardless of price. Our family connections in California grow 1200 acres all in seeds, and supply us with many sorts.

Terms:—Strictly cash with order. In consideration whereof we deliver free of charge (by parcel post or prepaid express) to any point in the United States or Canada and guarantee safe arrival in good condition.

If a large buyer and can use several pounds of any variety, kindly send us a list of your requirements for special prices on larger lots.

Remit by P. O. Money Order on Hempstead, N. Y., Registered Letter, Certified Check, Cashier's Check or New York Draft. Stamps accepted for small amounts.

Write name and address plainly, giving also Express Office if different from Post Office, when seeds are to be sent by express.

THIS LIST CANCELS ALL PREVIOUS ONES.

We respectfully solicit your orders.
